Product Change Notification for 10mm, 14mm and 20mm Tape Packing Radial MOVs
PCN#4755E

Littelfuse would like to notify you of a change relating to the outline dimension of 10mm, 14mm and 20mm tape packing products: this change will be implemented from **September 4th, 2017**. In order to improve the efficiency of taping process, we will upgrade the tape packing machine. This upgrade will also trim the wire lead as shown below from the photo below.

There will be no other changes to product's electrical and mechanical specification. The original part numbers and taping materials will also be remained unchanged. Customer could continue to apply the same assembly process or auto insertion facility to install the related parts.

Existing Taping

New Taping

Please see attached the affected part number list and the product drawing .

20170630 Taping
Affected Part Nur

Tape reel MOV
PCN 20170630 PC

Please respond to us by July 30th, 2017 to acknowledge notification of this change.

If we do not hear from you then we will expect that this change has been accepted and no further action is required.

Best Regards
