

**Notification of extending expiration period of
moisture proof packing for Photorelay**

We appreciate your patronage of our semiconductor products.

This notification is to inform you that Toshiba is planning the following changes for our semiconductor products. We would appreciate your continued support and understanding.

1. Affected product : Product families below

SSOP, USOP, VSON, S-VSON, VSONR, S-VSONR, P-SON families

*Please see the summary in the next page.

2. Description of change: see below

No.	Description	Before change	After change
1)	Expiration period indicated on a laminate bag	12 months	24 months
2)	Net weight of desiccant	10g	20g

*Please see the attachment for the details. (Page 1 to 2)

3. Purpose of change: To extend the expiration period of moisture proof packing

4. Product characteristics and reliability:

As described above, this change is intended to extend the expiration period. The product design and the process do not change.

5. Effective date of change:

This change will be effective from the production in April, 2020.

6. Request

If you have any concerns on this change, please contact us through our sales representative by March 19, 2020.

The changed products will be shipped out sequentially, if we did not receive any reply by the above date.

Sincerely yours,

H. Kusutomi / Manager
Quality Planning Group
Quality Assurance Department
Buzen Toshiba Electronics Corporation

(Drafted by T. Uchino)
