

PRODUCT CHANGE NOTIFICATION

PCN 20220404001

Date Issued: April 4, 2022

Product Identification: 0553-XXXX-XX-F, S553-XXXX-XX, S553-XXXX-XX-F, S554-XXXX-XX, S554-XXXX-XX-F, S555-XXXX-XX, S555-XXXX-XX-F, S558-XXXX-XX, S558-XXXX-XX-F where X can be any alphanumeric character.

Reason for Change (s): In an effort to improve the continuity of supply of our LAN magnetics product line, Bel has added second sources for the silicone used to provide electrical isolation and mechanical stability for the wound coils.

Description of the Change (s): Adding Bluestar GMX8152-06N and Mianyang Wells WR2577 as approved silicone encapsulant sources. Beyond a slight difference in color (see attached photos), there is no discernible difference between the silicones. This change will not affect “form, fit, or function”, nor does it affect any electrical parameters or dimensions. No additional changes are being implemented at this time.

Planned Timing and Implementation of Change: The additional sources will be introduced into production no later than September 21, 2022.

Impact on Quality and Reliability: None

Availability of Qualification Data: See attached documentation.

Remarks: **None.**

Signature:

A handwritten signature in black ink, appearing to read "Joseph H. Berg". The signature is written in a cursive style with a long horizontal flourish extending to the right.

(Bel Representative)
