Process Change Notification

Date: Friday, September 18, 2015

PCR Reference: 670

PCN Reference: 670-PCN90-Public

To Our Value Customer:

As always we appreciate your use of International Rectifier semiconductor products. Our commitment to customer satisfaction and continuous improvement is demonstrated by our change plans to enhance capacity, quality and reliability. This notice is to inform you of the following changes.

We would like to express our sincere appreciation for your cooperation regarding the following changes, and IR will work closely with you to support your requirements during this transition.

Type of Change Notification:

Additional Fab qualification for capacity expansion

Description of Change:

To qualify Tower Semiconductor Foundry

Reason for the Change:

To increase production capacity

Effect Date:

Thursday, December 17, 2015

International Rectifier will consider this change approved and will implement it by the effective date unless specific conditions of acceptance or data requests are provided in writing within 30 days of receipt of this notice. Please submit conditions of acceptance and data requests to the PCN coordinator listed at the end of this notice.

Impact of Change:

There is no impact to the fit, form or function of the completed parts

Method of Identifying Changed Product:

Date Code and Lot Code Information

Products Affected:

IR Part	Description
62-0187PBF	
IRFH7911TRPBF	MOSFET, 30V, Q1 13A & Q2 28A, Q1 8.6.& Q2 3.0 mOhm, PQFN
IRLR8721TRPBF-1	MOSFET, 30V, 65A, 8.4 mOhm, 8.5 nC Qg, D-Pak

Qualification:

Parts passed all the reliability testing requirements. Reliability qualification report is available upon request. Qualification standards can be found on International Rectifier's web site at www.irf.com/product-info/reliability

Supporting Data Availability:

Contact IR for supporting data on this change.
