Bourns® Model RLB0608 Series Radial Lead Inductors

Addition of Manufacturing Site

Riverside, California – September 29, 2021 – Effective immediately, Bourns will establish a new manufacturing site for the [Model RLB0608 Series Radial Lead Inductors](#). This additional site, located in China, is being established to accommodate the large increase in demand for the affected part numbers. A list of affected part numbers is included below.

The additional manufacturing plant in China uses the same design, component material and manufacturing process as the existing plant.

The form, fit, function and country of origin of these inductors will not change. The quality, reliability and production lead time of these inductors should not change.

Samples from the new production site are available for evaluation.

The implementation date is as follows:

First date code using the above changes: **2139**

For the time being, part numbers RLB0608-102KL and RLB0608-471KL will be produced at the new manufacturing site. All other affected part numbers of the Model RLB0608 series will continue to be produced at the existing manufacturing site.

If you have any questions or need additional information, please feel free to [contact Customer Service/Inside Sales](#).
