Product Marking Change Notification for LSP Module Series (PCN# 4006E)

Dear Valued Customers,

Littelfuse would like to notify you of a change relating to the product marking of LSP Module Series.

In order to improve product marking visibility for LSP Module Series, we will start to use label marking to replace existing laser marking. There will be no changes to the electrical or dimensional specifications.

Please refer to the following marking photo and affected part number list. This new label marking will be implemented from **November 20th, 2014**; during this transition period, customers are expected to receive the LSP Modules with laser marking until the laser marking product in our warehouse and the distribution channels are depleted.

From the publish date of this PCN, all the existing sample orders will be labeled with the new marking label.

Please respond to us by **October 30th, 2014** to acknowledge notification of this change. If we do not hear from you then we will expect that this change has been accepted and no further action is required. Thank you!

Best Regards
Johnny Chang
